INTRODUCTION

This handbook contains information relating to the definitions and statistics associated with unemployment insurance.

This information will be of value in manpower planning and the evaluation of the rapid changes now occurring in our economy. Employers, prospective employers, educational institutions, and various other agencies should be interested in the data provided herein.

Other publications and types of information are listed on the following page. They are available on request from the Audit & Analysis Department, Iowa Department of Job Service, 1000 East Grand Avenue, Des Moines, Iowa 50319.

Many of the statistics contained in this volume were prepared with the aid of standard technology and supervision provided by the Employment & Training Administration and the Bureau of Labor Statistics, United States Department of Labor.

DEFINITIONS

Actual Duration

The number of full weeks of benefits that a claimant has received. It is calculated by dividing the total benefits a claimant received by the individual's weekly benefit amount.

Appeal

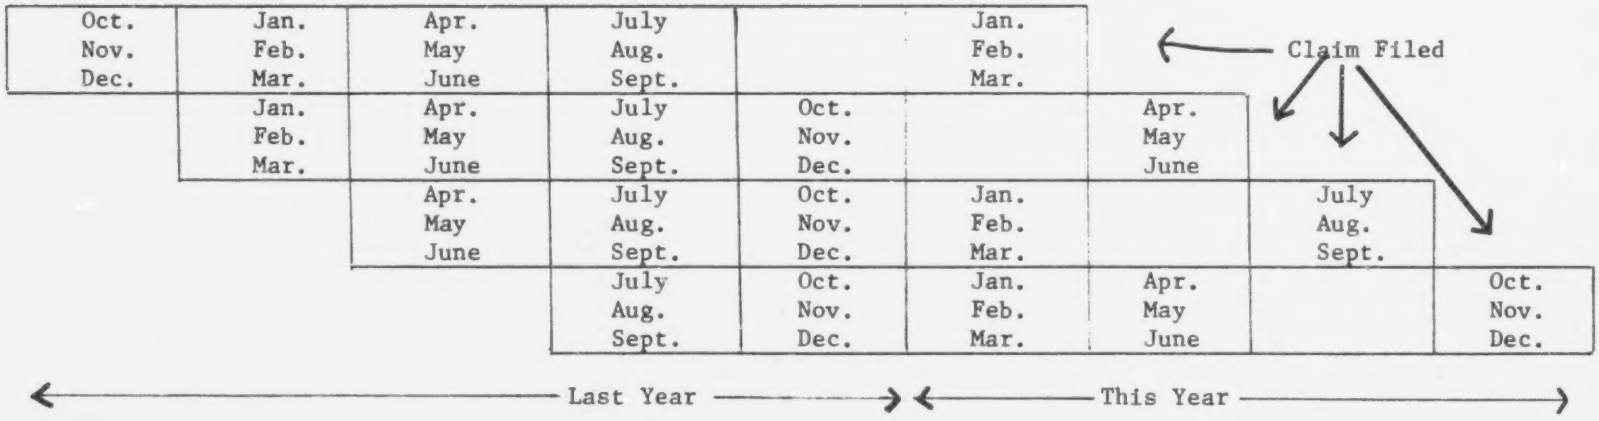
The right of interested parties to protest a determination on the basis that the determination is not legally correct or has been based on incorrect or incomplete facts.

Lower Authority Appeal: A request for a review by an appeals authority of a state employment security agency's determination on a claim for benefits, on an employer status report, or on an employer's contribution rate. Often referred to as an Appeals Tribunal or as an Appeals Referee.

Higher Authority Appeal: The designation given to a request for a review of a Lower Authority Appeal's decision by a higher appeals authority capable of reversing or amending the Lower Authority Appeals decision. Often referred to as an Appeal Board or Board of Review.

Base Period

The first four of the last five completed calendar quarters preceding the quarter in which a new claim is filed. Wages earned during this period are used to determine claimant eligibility.



Benefit Year

A 52-week period beginning on the effective date of a new claim. The limitation of maximum duration of benefits is applicable to this period.

Calendar Quarter

A three-month period ending on March 31, June 30, September 30, or December 31.

Claim

A request for benefit payment; also used to mean any notice filed by an individual to establish his insured status or to obtain credit for a waiting week, or a notice filed by an individual to inform the administrative agency of his unemployment.

Additional Claim. A request filed by a person who has established a benefit year, which has not expired, to reopen his claim after a period of intervening employment since he filed his last claim. One or more additional claims may be filed during a benefit year if the worker has not used up all his unemployment insurance payments.

Combined-Wage Claim; (CWC) A claim filed under the basic or the extended interstate wage combining plans.

1. Wage Combining Plans

    a. Basic Plan. An interstate agreement which allows workers who lack qualifying wages in any one state, to combine wages from more than one state, to become eligible for benefits.

    b. Extended Plan. An interstate agreement which allows workers having sufficient base-period wages to qualify for less than maximum benefits in one or more states, and insufficient base-period wages in other states, to increase benefits by combining wages.

Continued Claim; Weekly certifications for job insurance payments, which are processed in the week immediately following the week of certification.

Initial Claim; A notice filed by an individual to the effect that he has become unemployed. These may be either new claims or additional claims.

Interstate Claim: A claim filed in one state (agent state) against another state (liable state).

Intrastate Claim: A claim for unemployment compensation which is filed in the same state from which the unemployed person is claiming benefits.

New Claim: An application by an unemployed wage earner for a determination of eligibility for job insurance and computation of weekly and maximum J.I. payments.

Dependent: The claimant's spouse, who is non-working, and any other person the claimant could legally claim as a dependent for State Income Tax purposes. "Non-working spouse' means a spouse who does not earn more than one hundred twenty dollars in gross wages in one week.

Determination: A decision on a request for insured status, a claim for UI payments, or any job insurance issue.

DUA: Disaster Unemployment Assistance -- Federally funded unemployment assistance payments to individuals unemployed as a result of a major disaster as declared by the President.

Effective Date (Benefits): The date the benefit year begins. Claims for total unemployment insurance always begin on a Sunday; usually it is the Sunday of the week in which the claim is actually filed.

Claims for partial unemployment insurance are effective on the first day of the first low-earnings week so as to conform with the employer's workweek. This may be any day of the week and is done to facilitate the reporting and proper deducting of wages.

Extended Benefits: These benefits are available to claimants who have exhausted their regular job insurance benefits during period of high insured unemployment in Iowa. Prior to 1982 the program could also be triggered by high national insured unemployment.

FSB: Federal Supplemental Benefits -- A federally funded program to furnish additional unemployment benefits to individuals who remain unemployed and unable to obtain work after exhausting their rights to regular and extended compensation. This program was in effect from February 23, 1975 until January 3, 1976, and from March 7, 1976 until May 15, 1976.

FSC: Federal Supplemental Compensation -- A federally funded program similar to FSB. This program went into effect September 12, 1982.

Insured Unemployment

Insured unemployment is unemployment during a given week for which benefits are claimed under the state job insurance program.

Insured Work

Employment performed for an employer subject to the Iowa Employment Security Law.

Lag Period

The time between the claimants base period and the effective date of the claim.

Nonmonetary Determination

A determination as to whether a claimant is barred from receiving benefits for reasons other than the monetary determination of their eligibility.

Partial Unemployment

An individual shall be deemed partially unemployed in any week in which he or she earns less than his or her weekly benefit amount plus fifteen dollars.

Plant Closing

Employer going out of business, at a factory, establishment or other premises.

Potential Duration

The number of full weeks for which a claimant is determined to be eligible within a benefit year.

State UI Program

The state program of job insurance, covering employees of most private firms, state government, and local government.

SUA

Special Unemployment Assistance -- Federally funded unemployment assistance for workers who are unemployed and who are not otherwise eligible for unemployment compensation, assistance, or allowances under any State or Federal law. The program was in effect from December 22, 1974 until January 24, 1978.

Subject Employer

An employing unit covered under the State unemployment compensation law as a result of a status determination. Subject employers may be either active or inactive.

Active Employer

An employing unit currently registered under the State unemployment compensation law during an applicable reference time period.

Inactive Employer

An employing unit which no longer has covered employment in the state.

Total Unemployment

An individual shall be deemed totally unemployed in any week with respect to which no wages are payable to him or her and during which he or she performs no service.

TRA

Trade Readjustment Allowances -- A federally funded program to provide assistance to individuals unemployed as a result of United States trade policies.

UCFE Program

A federally financed program, administered by the Iowa Department of Employment Services, to provide unemployment insurance coverage to federal civilian employees.

UCX Program

A federally financed program, administered by the Iowa Department of Employment Services, to provide unemployment insurance coverage to former military service personnel.

UI

See definition of State UI Program.

Wages

Total Wages: All remuneration for personal services including commissions and bonuses and the cash value of all remuneration in any medium other than cash, paid for insured work by employers.

Taxable Wages: Wages subject to contribution under Iowa's employment security law, or wages subject to tax under the Federal Unemployment Tax Act. The maximum taxable wage paid to an individual is not 66 2/3% of the average annual wage in covered employment rounded to the next higher multiple of $100.

Weeks Compensated

The number of weeks for which benefits are paid.

Weeks Claimed

Total number of weekly certifications for Job Insurance payments, including all weekly certifications processed -- not just those for the week immediately prior.
